

## One Touch Integration Server

### SAVE TIME AND MONEY BY AUTOMATING YOUR FAX DOCUMENTATION PROCESSES.

The One Touch Integration Server maximizes the value of your company's fax documents by automatically routing and processing them as electronic documents while integrating them with a wide variety of back-end systems.

### WHY ONE TOUCH INTEGRATION SERVER?

Documentation is an unavoidable part of doing business, but in industries like health care and financial services, keeping track of sensitive personal information can start to feel like herding cats.

The One Touch Integration Server can help by:

- Integrating existing processes, applications and systems
- Reducing human error and time
- Lowering implementation costs
- Simplifying complex workflows
- Syncing with third-party systems

**Start simplifying your documentation processes.**

ABOUT  
OTGT

For more than 20 years, One Touch Global Technologies has made companies more efficient by streamlining the way fax documentation is handled – meaning less time, less money and fewer errors.

**Business document efficiency begins with One Touch.**

# One Touch Integration Server has the best-in-class functionalities you need to simplify your business processes.

## POWERFUL WORKFLOW CAPABILITIES

Work smarter, not harder, with a flexible, customizable router client, intelligent database updates and a prebuilt framework that simplifies and speeds up workflow design.

## PROVEN FAX TECHNOLOGIES

Maximize your faxing capabilities with Universal Fax Connector integration for RightFax, support for fax over IP and cloud fax, high-speed queuing and document distribution management, and more.

## FLEXIBLE INTEGRATION

There's no need to start at square one. One Touch Integration Server can work with a variety of scanners, faxes and other network devices to collect documents; scan to email, fax or storage; and more.

## SIMPLE CONFIGURATION AND ADMINISTRATION

Run your workflows like a pro with rules-based configuration, centralized administration, multiple profile support, user and group access control, and helpful APIs.

## NEXT-LEVEL CUSTOMER SUPPORT

You'll never have to go it alone – One Touch Global Technologies' customer service is second to none, with a fully staffed support team based right here in the United States.

## ROBUST DOCUMENT HANDLING

Organize your documentation with ease thanks to intelligent file naming, accurate bar code indexing, image controls and more.

One Touch has been very agile when it comes to features that are not standard out of the box, they're able to work them into the roadmap **in a reasonable amount of time.**"
